Rules of the game

The machines usually have English as their language, depending on the manufacturer. If you do not understand the messages, simply ask our helpful staff or refer to pages 6 and 7 in this flyer for further information.

Bets

Your bets can be made via the casino card or with cash (bank notes). In the Bavarian Casinos, you can place bets from as little as 1 cent.

The maximum bet depends on the game's programming. The following principle generally applies: the higher the stakes, the greater the win.

Payouts

Press the payout button, marked "CASHOUT" or "PAYOUT", to end your game and obtain your credited funds ("CREDIT").

Fair play – machines play fair

This is because they function on a random basis. Many games have a payout rate of an average of 94%.

The win display – for success along the whole line

The win display in the upper window shows you how much you have won at any particular time. You can also always simply press the "Info" button to obtain this information. You decide how many lines you play. The higher the stakes for the line, the higher the potential payout.

THE SLOT MACHINES EXPLANATIONS

OUR MACHINES

The slot machine – the classic

These popular fruit machines offer you the chance to play one or more lines. The start button has replaced the traditional lever to start the game on almost all machines.

Video slots – a new era of winning

These devices work with virtual lines on a video monitor, thus offering better visual representation than the classic fruit machines. More games and chances to win are offered under “Features”. This allows you to multiply your winnings without losing them.

Jackpot machines – the acme of winnings

Every Bavarian Casino offers you gaming machines that have no fixed highest win, but instead feature a “progressive jackpot”. These jackpots include the Bavarian Jackpot, House Jackpot and Poker Jackpot. Here, the potential winnings grow with every game! If a specific combination of images appears (winning icons), the jackpot is won.

Bavarian Jackpot

Every Casino has four machines that are linked up for the Bavarian Jackpot – this comes to a total of 36 machines in Bavaria. This network enables huge winnings of up to €100,000 to be gained. You can see the current jackpot status on the display board.

Car Jackpot

The car jackpot machines have a fixed-prize jackpot, that means that you are playing to win a specific prize. The car is integrated into the jackpot system or will be located in the foyer or in front of the casino.
