## Rules of the game

The machines usually have English as their language, depending on the manufacturer. If you do not understand the messages, simply ask our helpful staff or refer to pages 6 and 7 in this flyer for further information.

## Bets

You can submit your stakes using the casino card or tokens. You can try your luck from a stake of just 1 cent per payline at Bavarian Casinos.

The maximum bet depends on the game's programming. The following principle generally applies: the higher the stakes, the greater the win.

## Payouts

Press the payout button, marked "Cashout" or "Payout", to end your game and obtain the money according to your balance ("CREDIT") at the cashier or terminal.

## Fair play – machines play fair

This is because they function on a random basis. Many games have a payout rate of an average of 94%.

## The win display – for success along the whole line

The win display in the upper window shows you how much you have won at any particular time. You can also always simply press the "Info" button to obtain this information. You decide how many lines you play. The higher the stakes for the line, the higher the potential payout.

## OUR MACHINES

### **The slot machine – the classic**

These popular fruit machines offer you the chance to play one or more lines. The start button has replaced the traditional lever to start the game on almost all machines.

### **Video slots – a new era of winning**

These devices work with virtual lines on a video monitor, thus offering better visual representation than the classic fruit machines. More games and chances to win are offered under “Features”. This allows you to multiply your winnings without losing them.

### **The poker machine – your royal flush**

This machine functions like the game “Draw Poker”, but you play on your own against the poker machine here. After it has dealt you five cards, you can choose to keep the cards by pressing the “HOLD” button or get new cards by pressing “DRAW”. You can see how much you have won on the display.

### **Jackpot machines – the acme of winnings**

Each Bavarian casino offers machines without a fixed maximum win amount, but instead have what is known as a progressive jackpot. These jackpots include the Bavarian Jackpot and the House Jackpot.

Bavarian Casinos also offer a wide range of single jackpot machines. On these machines, the maximum win increases with every game. If a specific combination of images comes up (winning icons), you win the jackpot.

### **Bavarian Jackpot**

Every Casino has four machines that are linked up for the Bavarian Jackpot – this comes to a total of 36 machines in Bavaria. This network enables huge winnings of up to €100,000 to be gained. The current jackpot is shown on the display board in the game room.
